Lessard-Sams Outdoor Heritage Council Laws of Minnesota 2010 Final Report

Date: October 12, 2017

Program or Project Title: Reinvest in Minnesota Wetlands Reserve Program Acquisition and Restoration, Phase 2

CLEAN WATEL LAND & LEGAC

Funds Recommended: \$6,895,000

Manager's Name: Kevin Lines

Organization: BWSR

Address: 520 Lafayette Road North

City: St. Paul, 55155

Office Number: 651-297-1894 Email: kevin.lines@state.mn.us

Legislative Citation: ML 2010, Ch. 361, Art. 1, Sec. 2, Subd. 4(c)

Appropriation Language: \$6,895,000 in fiscal year 2011 is to the Board of Water and Soil Resources to acquire permanent conservation easements and restore wetlands and associated uplands in cooperation with the United States Department of Agriculture Wetlands Reserve Program. A list of proposed acquisitions and a list of proposed projects, describing the types and locations of restorations, must be provided as part of the required accomplishment plan. All restorations must comply with subdivision 9, paragraph (b).

County Locations: Big Stone, Blue Earth, Clay, Freeborn, Grant, Kandiyohi, Le Sueur, Mahnomen, Marshall, McLeod, Meeker, Murray, Norman, Pope, Rice, Stevens, West Ottertail, and Wilkin.

Regions in which work was completed:

- Forest / Prairie Transition
- Prairie

Activity types:

- Protect in Easement
- Restore

Priority resources addressed by activity:

- Wetlands
- Prairie
- Habitat

Summary of Accomplishments:

The RIM-WRP Partnership permanently protected 4,166 acres of priority wetlands and associated upland native grassland wildlife habitat via perpetual conservation easements on 46 sites and leveraged over \$9.8 million of federal Wetlands Reserve Program funds.

Process & Methods:

Described as the premier private lands wetland restoration easement program in the nation, the RIM-WRP partnership combined Minnesota's RIM Reserve conservation easement program and the United States Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) Wetlands Reserve Program (WRP). Combining RIM Reserve and WRP allowed OHF to leverage Federal Farm Bill conservation dollars to Minnesota. Utilizing both programs resulted in competitive payment rates to landowners and sharing of the costs associated with perpetual easement acquisition and restoration by both the federal and state programs.

This opportunity was offered statewide but had a priority focus in the ecological provinces of the state that have experienced significant losses of wetland and associated prairies. It was delivered by local NRCS staff, local Soil and Water Conservation District

(SWCD) staff and assisted by program staff from both NRCS and the Board of Soil and Water Resources (BWSR). In addition, Ducks Unlimited (DU) contract employees and staff provided by Minnesota Waterfowl Association (MWA) assisted in program delivery. Since the SWCD is responsible for the local delivery of the RIM Reserve program to private landowners on behalf of the State of Minnesota, they were ideally suited to work in concert with their local NRCS staff to efficiently and effectively deliver the RIM-WRP partnership. Once an easement is acquired NRCS is responsible for maintenance, inspection and monitoring during the life of their 30-year WRP easement. The state of Minnesota assumes sole responsibility via its RIM Reserve easement once the 30-year WRP easement has expired. BWSR partners with local SWCDs to carry-out oversight, monitoring and inspection of its conservation easements.

Final Summary:

In 2010, 2011, and 2012, RIM-WRP sign-ups occurred. 100's of applications were generated that far exceeded this appropriation. 46 RIM-WRP easements were acquired on 4,166 acres. \$5.2 million of RIM funds from OHF were paid directly to landowners which leveraged over \$9.8 million of federal WRP funds. Approximately 1,416 acres of wetlands and 2,750 acres of adjacent uplands have been protected.

The RIM-WRP Partnership successfully demonstrated that the State of Minnesota can cooperatively work with a federal partner (NRCS) and through a local delivery system (SWCD, NRCS, DU and MWA) to implement a permanent easement protection program that yielded thousands of acres of permanently protected wildlife habitat. This significant leverage was due to the amount of easement payments, conservation plan payments, and other costs the NRCS contributed to this partnership. The NRCS made the bulk of the easement payment portion through 30-year WRP Easement acquisition, while BWSR paid an additional portion for the Permanent RIM Easement.

NRCS paid approximately 75% of the restoration costs for these easements, with RIM picking up the remaining 25%. The use of NRCS Practice Standards, along with BWSR's Native Vegetation Guidelines led to very high diversity mixes being seeded. The level of wetland restoration was dependent on restorable extent that would not impact lands outside the easement area. BWSR & NRCS evaluated restoration extent during our scoring review to ensure restoration was actually feasible, then followed up with site analysis and surveys.

Several easements contained CRP contracts, where looming expiration meant a risk of losing habitat that was already in good condition. We estimate that 450 acres contained CRP contracts that were set to expire. Upon execution of the WRP Easement and RIM Easement, CRP contracts were required to be terminated.

BWSR and the NRCS are committed to seeing all restorations through to ensure all sites provide beneficial habitat. Sixteen easements have restorations fully completed. Due to delays with easement processing, restoration was also delayed in several cases. Thirty easements still have some level of restoration yet to occur. BWSR is held to the statutory requirement that requires restoration of the easements we acquire. This restoration includes establishment of acceptable vegetation, if the current cover does not adequately meet site goals.

Explain Partners, Supporters, & Opposition:

Delivery of this program was a coordinated approach that brought together Minnesota BWSR, Minnesota NRCS, local Soil & Water Conservation Districts, Ducks Unlimited, Minnesota Waterfowl Association, and Farm Bill Assistance Partnership Staff, as well as other key conservation partners interested in private land conservation.

Additional Comments:

Exceptional challenges, expectations, failures, opportunities, or unique aspects of program

Easement processing with RIM-WRP had taken on average 36 months versus the average 12 to 18 months we would have seen through stand-alone RIM. This was due to a number of factors, primarily centered on the federal processes, staffing and funding challenges. Contracting delays led to delays in being able to conduct restorations, and inability for NRCS to cost-share for certain activities led to a state cost that exceeded our expectations.

However, this partnership secured several significant wetland restoration sites that can be considered shining examples of the habitat Outdoor Heritage Funds can provide. This program leveraged a large amount of federal funds to achieve more than double the acres than if we did not have this partnership.

This program successfully secured several wetland and grassland habitat complexes. This partnership added parcels adjacent to current easement areas to achieve greater restorations and brought several landowners together for joint restorations.

Other Funds Received:

• Environmental and Natural Resource Trust Fund

How were the funds used to advanced the program:

The Farm Bill Assistance Partnership with BWSR, DNR, PF, NRCS and SWCDs as primary partners, provided funding to SWCDs to utilize technicians to promote the conservation provisions of the Federal Farm Bill and other conservation program opportunities to private

landowners. The Environmental and Natural Resources Trust Fund (ENRTF) via LCCMR recommendations provided a portion of this funding.

What is the plan to sustain and/or maintain this work after the Outdoor Heritage Funds are expended:

Once a RIM easement is acquired, BWSR is responsible for maintenance, inspection and monitoring into perpetuity. The BWSR partners with local SWCDs to carry-out oversight, monitoring and inspection of its conservation easements. Easements are inspected for the first five consecutive years beginning in the year after the easement is recorded. Thereafter, on-site inspections are performed every three years and compliance checks are performed in the other two years. SWCDs report to BWSR on each site inspection conducted and partners' staff document findings. A non-compliance procedure is implemented when potential violations or problems are identified. The amount listed for Easement Stewardship covers a portion of costs of the SWCD regular monitoring, BWSR oversight, and enforcement.

Outcomes:

The original accomplishment plan stated the program would

Programs in forest-prairie transition region:

Not Listed

How will the outcomes be measured and evaluated?

An increase of wetland and associated native grassland habitat availability within a certain region are expected to increase the carrying capacity of wetland-dependent and grassland-dependent wildlife within that region. This would have a positive impact on both game and nongame species. We expect more abundant populations of endangered, threatened, special concern and game species as these complexes are restored.

Programs in prairie region:

Not Listed

How will the outcomes be measured and evaluated?

An increase of wetland and associated native grassland habitat availability within a certain region are expected to increase the carrying capacity of wetland-dependent and grassland-dependent wildlife within that region. This would have a positive impact on both game and nongame species. We expect more abundant populations of endangered, threatened, special concern and game species as these complexes are restored.

Budget Spreadsheet

Final Budget line item reallocations are allowed up to 10% and do not need require an amendment to the Accomplishment Plan

Explain any budget challenges or successes:

We received \$9,805,200 of federal leverage through this program.

Delays in restoration, partially due to federal contract processing delays, led to increased restoration costs.

All funds have been encumbered and all budget lines are reported as spent. Should any left over funds remain as the appropriation closeout occurs in the State financial system, they will be returned to the Outdoor Heritage Fund.

All revenues received by the recipient that have been generated from activities on land with money from the OHF:

Total Revenue: \$0
Revenue Spent: \$0
Revenue Balance: \$0

- D. This is not applicable because the recipient is a state agency or department.
- E. This is not applicable as there was no revenue generated.

Λ

Explain the success/shortage of acre goals:

This Appropriation specified a 4,620 acre goal. This partnership attained 90% of this acreage goal, resulting in 4,166 acres of permanent easements. Contracting delays led to delays in being able to conduct restorations, and inability for NRCS to cost-share for certain activities led to a state cost that exceeded our expectations.
